Feel the transformative powers of steam.

Steam is an essential, time-tested experience that can shape your mental and physical well-being. By supporting heart, lung and vascular wellness, steam empowers physically. By promoting relaxation and helping manage stress, it purifies emotionally. **These benefits are why we stand behind our belief that wellness is not a luxury but a necessity.** That's why each and every innovation we create is designed to deliver comprehensive wellness to every home. A traditional shower cleans, but a MrSteam steam shower cleanses — mind, body and spirit. As innovators of complete wellness, we are more than purveyors of steam. We bring wellness to life.

Experience the art of slowing down.

More than mere luxury, MrSteam steam showers provide a restorative experience in the intimacy of your home. Combine heat, steam, music, fragrance and chromatic lighting with our intuitive touch controls, **transforming your shower enclosure into a multisensory spa**. An easy addition to your bathroom, MrSteam provides a blissful upgrade to your lifestyle.

A traditional shower cleans, but a steam shower cleanses mind, body and spirit.

“I have one particular client who really suffers from allergies, and there are times when he says he gets up and uses his steam shower in the middle of the night if he’s uncomfortable, and then he is able to rest so much better.”
